

A photograph of three students in a radio studio. A male student on the left is wearing headphones and smiling. A female student in the center is wearing a light-colored jacket with a yellow flower and is also smiling. A female student on the right is looking down. They are surrounded by professional microphones and studio equipment.

DIPLOMA IN COMMUNICATIONS & MEDIA MANAGEMENT (T40)

Course Overview

This course exposes you to highly sought-after skills in journalistic writing, digital content creation and media production. You will learn how to incorporate storytelling with digital communication skills to create strong business narratives. You can further hone your storytelling skills with either our Journalism or Integrated Media elective cluster. In addition, the business management modules built into our curriculum will allow you to gain insights into the media sector's business operations.

Our fully equipped MediaBiz Studio is where you can create exciting content for our news portal Stories & Co. and produce audio programmes for our on-campus radio station RadioActive. Through our strong industry partnerships, you will get opportunities to work on collaborative client projects where you will create impactful brand stories.

Equipped with in-demand skills, you can look forward to meaningful careers across diverse industries as a media, communications, PR, or content creation specialist. Join us and together, we will create purposeful content that connects communities.

BE A MASTER OF STORYTELLING

Master the art of storytelling to be agile, effective communicators across all digital media platforms.

REAL-WORLD EXPERIENCE

Gain real-world exposure through networking, project and event opportunities with strategic learning partners such as Mediacorp and SPH.

CERTIFIED FOR THE INDUSTRY

Attain industry recognised certifications to enhance career options such as Adobe Premiere Pro and Photoshop.

Entry Requirements

To be eligible for consideration for admission, applicants must obtain 26 points or better for the net ELR2B2 aggregate score (i.e. English Language, 2 relevant subjects and best 2 other subjects, including CCA Bonus Points) and meet the minimum entry requirements of this course. CCA cannot be used to meet the minimum entry requirements.

Subject	Grade
English Language (EL1)*	1-4
Mathematics (E or A)	1-7
Any three other subjects	1-6
2023 Planned Intake	85
Net ELR2B2 aggregate range (2023 JAE)	6 - 13

TP Fundamentals (TPFun) Subjects

Subject Code	Subject	Credit Units	
BSI3040	<p>Student Internship Programme</p> <p>This structured programme is designed to link your learning with the real work environment. You will be placed in organisation(s) with opportunities to apply the concepts and skills acquired in the course of your study. Besides reinforcing technical concepts and mastering of skills in areas that you have been trained, the practical training will enable you to build important skills such as problem-solving, communication, teamwork, and to cultivate good attitude and a strong work ethic.</p>	16	^
BTX1001	<p>Effective Communication</p> <p>This subject introduces the fundamentals of effective communication. It also covers how to communicate with and convince an audience through writing and speaking tasks. The skills in this subject will include the application of strategies for communication, appropriate vocabulary, language features, visual aids, tone and style. The Message, Audience, Purpose and Strategy (MAPS) framework will also be applied when planning and engaging in written and verbal communication. There will be opportunities to communicate and collaborate through active learning activities, apply digital and information literacy skills and build competence through self-directed learning.</p>	3	^
BTX1002	<p>Professional Communication</p>	3	^

This subject covers professional communication skills for the workplace and employability skills in the areas of career preparation. It covers communication and interpersonal skills, including effective virtual communication etiquette, and conducting oneself professionally in the workplace. In addition, essential career preparation skills such as resume writing and interview skills, needed to seek and secure work would be included. The **Message, Audience, Purpose and Strategy (MAPS)** framework would also be applied when engaging in written and verbal communication. There will be opportunities to communicate and collaborate through active learning activities, apply digital and information literacy skills and build competence through self-directed learning.

GTP1301

Current Issues & Critical Thinking

3

This subject covers current issues, including diverse local and global concerns, that will impact lives and may have critical implications for Singapore. There will be opportunities to build competence through self-directed learning, communicate and collaborate in active discussions and objectively analyse issues using digital and information literacy skills and critical thinking scaffolds.

GTP1201

Career Readiness

1

This subject focuses on personal management skills. It develops an understanding of one's career interests, values, personality and skills for career success. It covers the necessary knowledge, skills and attitudes needed to succeed in the workplace and achieve professional goals. There will be exposure to apply digital and information literacy skills, build competence through self-directed learning methods, and acquire the skills of being a lifelong learner.

GTP1202	Career Management This subject focuses on career management skills. It covers the importance of workplace readiness skills to adapt and respond to the changing job market environment. Career ownership and continuous learning for lifelong employability will be emphasised. There will be exposure to apply digital and information literacy skills, build competence through self-directed learning, and acquire the skills of being a lifelong learner.	1 
BGS1002	Global Studies This subject provides essential skills and knowledge to prepare students for an overseas experience. They will examine the elements of culture and learn the key principles of cross-cultural communication. In addition, they will gain an appreciation and awareness of the political, economic, technological and social landscape to function effectively in a global environment. The subject prepares students to be responsible global citizens and leaders who can contribute to the global community through effective communication and collaboration.	3 
GTP1302	Guided Learning* The subject introduces students to the concepts and process of self-directed learning in a chosen area of inquiry. The process focusses on four stages: planning, performing, monitoring and reflecting. Students get to plan their individual learning project, refine and execute the learning plan, as well as monitor and reflect on their learning progress and project. The learning will be captured and showcased through a curated portfolio. The self-directed learning project will broaden and/or deepen a student's knowledge and skills. Students will enhance their problem solving and digital literacy skills through this subject.	3 

BIN1001	<p>Innovation & Entrepreneurship</p> <p>The subject is designed for learners from all disciplines to embrace innovation in either their specialised field or beyond. Learners will be taught to apply the Design Thinking framework to develop problem statements, ideate and identify feasible solutions. Learners will be exposed to several tools for prototyping. In addition, commercial awareness will be imbued in learners through various innovation and entrepreneurship concepts or tools. This subject also prepares students to be self-directed lifelong learners who are digital and information literate. It nurtures communicative and collaborative citizens who can use objective analysis in problem-solving.</p>	<p>2</p> <p></p>
GTP1101	<p>Leadership Fundamentals</p> <p>This subject focuses on self-leadership based on the values of integrity, respect, and responsibility. Increasing awareness of self and others will lay the foundations for personal and relationship effectiveness. Consequential thinking, clear articulation of personal values and visions, emphatic listening, and collaboration in serving others are some of the essential skills covered in this leadership journey. There will be opportunities to build and to apply the concepts of being a values-centred leader.</p>	<p>2</p> <p></p>
GTP1102	<p>Leadership in Action</p> <p>This subject focuses on Service Learning as an experiential platform to apply the tenets of Self and Team Leadership. Service Learning will be the capstone project for this subject, which will require an analysis of the diverse needs of the community, collaboration with community partners and demonstration of learning, including key elements of empathy. There will be opportunities to build and to apply the concepts of being a values-centred leader.</p>	<p>1</p> <p></p>

LSW1002	Sports & Wellness The subject enables students to build a good foundation for healthy living. Students will have the opportunity to participate in hands-on practical sessions where they will experience and develop both physical and technical skills in their chosen sports or fitness activities. Through a structured curriculum that facilitates group participation, practice sessions and mini competitions, students will be able to build lifelong skills such as resilience, leadership, communication and teamwork. Physical activity sessions will also be supplemented by health-related topics that span the dimensions of health, such as diet, nutrition, stress and weight management, to provide students with a holistic approach to healthy living. This subject also prepares students to be self-directed and accountable for lifelong learning for good health.	2 
TGS1001	Sustainability & Climate Action* This subject prepares students to be responsible global citizens and future leaders who can contribute to the global community. It introduces the topics of sustainability and explores how human societies can act to build a sustainable future. This subject focuses on the impact of climate change, potential solutions to climate change, and the future of the green economy from global and local perspectives.	3 

* Students must choose to take either **Sustainability & Climate Action** or **Guided Learning**.
